

# Escape the Winter Blues

## Make Sunny Greece Your Second Home

Imagine strolling along a vibrant seaside path, surrounded by wildflowers, with the warm Mediterranean sun on your skin, in the middle of January!

This isn't just a dream - it's a reality for many. More and more northern Europeans are trading the cold winter landscapes of the north for golden Mediterranean sunsets, opting to spend several months in Greece to enjoy the mild winters, breathtaking scenery, rich culture and world-famous cuisine.

Would you love to experience Greece as your winter retreat?

Our organisation will assist you to:

- ✓ **Find the perfect home for your stay**
- ✓ **Enjoy local support to make your experience seamless**
- ✓ **Join a growing community of winter residents**

Our aim is to create a bespoke living situation for people who wish to take advantage of all that Greece has to offer and who are free to reside in Greece somewhere between the end of November and the beginning of April.

In addition to setting you up with a suitable home, our organisation will offer an added value service of a local representative, who will be by your side to make sure you have the best possible experience.

In order for us to understand what you need to make this dream a reality, please take a few minutes to complete our questionnaire to inform us of your preferences.

We appreciate your participation in advance. If you would like to be kept informed about our organisation's services and activities, please feel free to complete the last section of the questionnaire with your contact details.
